La Clínica 12th Annual Health Fair brings free Health Screenings & Immunizations to East Bay Residents

OAKLAND, CA – La Clínica is thrilled to bring vital health screenings to the Oakland community on Saturday, July 25th from 10-4pm. The fair will be held at the César Chavez Education Center in Oakland, just a few blocks from La Clínica.

Participants will have the opportunity to meet with local health care professionals to ask questions and get health information. This year we will provide screenings for cholesterol, diabetes, HIV, vision, dentistry, blood pressure, and immunizations, as well as education on nutrition, asthma prevention, domestic violence and more. Also, the fair will introduce many East Bay residents to the wide array of services available year-round at La Clínica and at other agencies in the area. We will offer this greatly needed preventive care in an accessible and fun environment with music and family activities.

At last year's health fair, La Clínica provided screenings to over 1,100 patients. This year, we hope to provide screenings to just as many individuals. "At La Clínica, we see first hand the need for these services in the community, which is why with the help of our partners, we can continue to bring these vital services to those that need it most," said Jane Garcia, CEO.

The health fair is a great opportunity to get free screenings and other health care services. We encourage you to bring your friends and family and enjoy live music, raffle prizes, children activities, and resourceful information from various community organizations including the Latino Commission on Alcohol and Drug Abuse of Alameda County, Bay Area Legal Aide, Oakland Housing Authority, Medical Board of California and others.

The mission of La Clínica is to improve the quality of life of the diverse communities we serve by providing culturally appropriate, high quality and accessible health care for all. Our 26 clinical sites are located in Alameda County, Solano County and Contra Costa County. For more information about La Clínica or to learn more about the health fair please visit us at www.laclinica.org.
